Share Health Southeast Georgia Announces Scholarship Recipients

Chelsea Cravey was awarded the Kenny McCarthy Graduate scholarship from Share Health Southeast Georgia. Chelsea is currently an Environmental Health Specialist at the Southeast Health District. She is planning to further her education by pursuing a Master of Public Health degree at Georgia Southern University.

Share Health Southeast Georgia offers the Kenny McCarthy Share Health Southeast Georgia Graduate School Scholarship to students in Southeast Georgia who are pursuing a graduate degree or advanced certification in health-related fields including medicine, dentistry, pharmacy, behavioral health, nursing and public health. Each year, the scholarship is awarded to student leaders, with the intent of helping them matriculate through graduate school.

Share Health Southeast Georgia is dedicated to improving the health of all generations in the Southeast Health District. It accomplishes its mission by providing capacity-building, philanthropic and advocacy support to its community partners and by maintaining its close, collaborative partnership with the Southeast Health District to promote and support its programs and services.
