Share Health Southeast Georgia
2018-19 Annual Report

Share Health Southeast Georgia

2018-19
Annual Report
INTRODUCTION

Share Health Southeast Georgia was established in September of 2015 to build our region’s capacity to address many of the unmet health care needs of Southeast Georgia residents. The organization was initially funded through a federal Office of Rural Health Policy Rural Health Network Development Planning Grant awarded to the Ware County Board of Health and its partners. This grant provided funds to incorporate the organization, acquire nonprofit 501(c)3 status from the Internal Revenue Service, establish and provide support to a Board of Directors, engage in a five-year strategic planning process and plan for sustainability.

Share Health serves 16 southeast Georgia counties:

Appling    Bulloch    Coffee    Tattnall
Atkinson   Candler    Evans    Toombs
Bacon      Charlton   Jeff Davis  Ware
Brantley    Clinch     Pierce    Wayne
MISSION

Share Health Southeast Georgia is dedicated to improving the health of all generations in our sixteen-county community by cultivating partnerships and providing philanthropic and advocacy support to the Southeast Health District.

We work to accomplish our mission by:

- Engaging local community partners to help us identify local health issues and address them via community driven strategies.
- Utilizing data to identify and increase understanding of the issues and to determine the strategies necessary to address them.
- Opening doors to funding streams and resources traditionally unavailable to government agencies that allow us the means to address local health issues; and
- Providing training via scholarships to retain a skilled healthcare workforce.

We maintain a close partnership with the Southeast Health District, one of 16 public health districts in Georgia. The Southeast Health District provides our board with public health expertise and consultation on community health issues and concerns via an Advisory Committee. Dr. Rosemarie Parks, MD, MPH, the Southeast Health District Director, serves as an ex-officio member of the Share Health Southeast Georgia board.
ACCOMPLISHMENTS

2018-19 represents Share Health’s third year of full operations. We are proud of our accomplishments and continue to build on them to fulfill our mission and strategic goals.

Community Health Initiatives

Coalition for a Healthy Appling County

Share Health Southeast Georgia partners with the Appling County Health Department to coordinate efforts of the Coalition for a Healthy Appling County (CHAC). Funded through a Two Georgias grant from the Healthcare Georgia Foundation, the CHAC has over 25 members and 167 volunteers, representing civic, faith, government and business organizations. The initial Two Georgias grant, awarded to the Appling County Board of Health in July 2017, funded a planning year and the development of a Community Health Implementation Plan (CHIP), based on data derived from needs assessment and community focus groups. The CHAC mission is “To transform the Appling County community by ensuring access to healthcare, improving access to resources, engaging in strong collaborative alliances, and developing a universal message to communicate health for all.” CHAC focuses on three goals: (1) Empower all Appling County residents to eat a healthy diet; (2) Empower all Appling County residents to be physically active; (3) Leverage partnerships to offer seamless behavioral healthcare to school children. Now in its third of five years of Healthcare Georgia Foundation funding, the CHAC is implementing strategies to achieve its goals.

Through a contract with Appling County Board of Health, Share Health coordinates CHAC activities, including providing assistance with the development of the CHAC’s mission, goals and objectives; organizing coalition meetings; facilitating communications between CHAC members and the community; and providing technical support in the development of the CHIP. Share Health also administers a mini grant program intended to allow community members and organizations from Appling County to apply for funds to implement some of the strategies identified in the CHIP that will help improve the health of Appling citizens. Eight mini grants totaling $27,927 were awarded to community partners in 2018-19.

CHAC achievements in 2018-19 include:
- Worked with the Society for St. Andrew to develop a gleaning program, harvesting over 4,443 lbs of fruits and vegetables.
- Logged over 915 hours of time by 167 volunteers to implement CHAC projects.
- Acquired $114,661 in in-kind contributions to support CHAC initiatives.
- Awarded $29,389 in mini grants.
- Offered the Organ Wise Guys healthy eating curriculum to 140 2nd graders at Appling County Primary School.
- Created the Poor Robin Community Playground.
• Supported Introduction to Tai Chi classes for Appling residents.
• Improved the walking trail at the Recreation Complex thru purchase of equipment.

Jeff Davis Substance Abuse Coalition

In the Spring of 2018, Share Health partnered with the Jeff Davis Board of Health, Jeff Davis Family Connection Collaborative, Jeff Davis Hospital, Jeff Davis High School, Hazlehurst Police Department, Pineland Behavioral Health Community Service Board and the Southeast Health District to submit an application to the Health Resources and Services Administration for a Rural Health Network Development Planning grant to address the serious and growing substance abuse challenges faced by residents of Jeff Davis County. Grant funds were awarded in August 2018 and the Jeff Davis Substance Abuse Coalition was formed. Funds were used to first identify resources and needs related to substance abuse prevention, treatment and recovery. This process led to the development of a strategic plan to address the entire spectrum of need in a comprehensive, cross-sector initiative. Partners involved in this process included law enforcement, local health entities including the hospital, medical providers, behavioral health care and the health department, schools, EMS, faith community and social service agencies.

Share Health coordinated the JDSAC strategic planning process by organizing coalition meetings, facilitating communication between members and the larger community, identifying resources as members developed goals, objectives and strategies, and providing technical support. Share Health administered a Jump Start Fund, which awarded $21,406 in five grants to provide JDSAC partners with opportunities to initiate innovative ideas that resulted from the strategic planning process. Jump Start grants were used to:

- Develop a JDSAC website to easily share resources and information with community members.
- Hold a Teen Maze event to demonstrate the consequences of negative behaviors and decisions, such as drug use, to stimulate better choices and healthier lifestyles.
- Purchase on-line court classes for juvenile offenders as a pre-trial diversion program.
- Purchase Narcan for the Hazlehurst Police Department and train officers on its use.
- Develop a supply closet stocked with substance use/opioid educational materials, resources and JDSAC promotional items, for use by all partners at community events.
Scholarship Program

The Share Health Southeast Georgia Scholarship Program offers scholarships to both traditional and nontraditional students pursuing a career in healthcare. Scholarships are offered to traditional students who reside in and attend high school in our 16-county service area. Non-traditional students who are enrolled in a degree program in public health or related field and reside in one of the 16 counties of the Southeast Health District can apply for scholarship assistance. Preference is given to nontraditional students who are employees of the Southeast Health District. In May 2019, we awarded three scholarships to high school students and two scholarships to Southeast Health District public health employees. Scholarship recipients include:

- Shanterica Butler, a graduate of Atkinson County High School attending Wiregrass Georgia Technical College.
- Julianna Perritt, a graduate of Ware County High School attending Georgia College and State University.
- LiliAnn Pittman, a graduate of Toombs County High School attending Augusta University.

Southeast Health District scholarship recipients are:

- Rebecca Reis, an Administrative Assistant at the SEHD in Waycross, who will be attending South Georgia State College.
- Lutrenda Clay, Nurse Manager at the Evans County Health Department, who will be attending Chamberlain University.

2019 Scholarship Winners
Share Health Southeast Georgia 2018-19 Board of Directors

Joshua McCarthy, MD, Chair
Private practice physician
Waycross, GA
